

Outline for Presentation

Sehome High School Culminating Project

Outline for Presentation

A good presentation will have an interesting introduction, three main points that are clearly stated and a strong conclusion. The following is a suggested outline for you to follow:

I. Introduction

- A. Attention Getter
- B. Introduce Self
- C. Describe Project
- D. Personal Interest in Topic of Project
- E. Preview Main Points of Presentation

II. Learning

- A. Goals for Learning (What were the learning goals you listed on your proposal?)
- B. Actual Learning (What did you really find out from completing all parts of this project?)
 1. From scholarly paper/research:
 - a. What was the essential question you researched?
 - b. What **main points** does your scholarly paper cover? (Provide a brief summary.)
 - c. What did you determine to be the answer to your essential question?
 - d. How did your scholarly paper research help your project?
 2. From fieldwork/project work (talk about some things you've learned from the actual "hands-on" project itself)
 3. Overall project management (discuss some things you've learned about completing a long-term project)

III. Community Benefit/Connection

- A. Community Advisor
 1. Name
 2. Expertise
 3. Number of meetings (where and when?)
 4. How did this person help you?
- B. Actual Project
 1. Who did it benefit or with whom was your community connection?

2. In what ways did your project benefit someone else?

IV. Benefit for the Future

- A. Your Plans for the Future (What do you plan to do after high school?)
- B. How Does Completion of your Culminating Project Relate to Your Future Plans?

V. Conclusion

- A. Summarize High Points of Project
- B. Thank Audience (Panelists and other Presenters)
- C. Ask for Questions

*** Note: Be sure to refer to your visual aid/s during your presentation**
